Census 2011; not a radius estimate

Opportunity interpretation: Supply opportunity cannot be classified until the mapped-business and population sources complete.

Consumer-base boundary: A 5 km/10 km population estimate requires a verified village/grid demographic dataset and cannot be derived from a block total. The report now presents the completed radius-level supply evidence and clearly keeps population at its verified block scope.

05 • EVIDENCE-LED DECISION SUPPORT

SWOT and risk watch

Verified source

Strengths

- No verified commercial-feature count is available yet.
- Competitor evidence is pending.

Verified source

Weaknesses

- Block-level Census population is not a 5 km or 10 km consumer-base estimate.
- OpenStreetMap coverage can omit informal and unmapped enterprises.

Verified source

Opportunities

- Classify supply only after the demographic and OSM lookup completes.
- Add a comparable local price to create an affordability-positioning reference.

Needs verification

Threats / risks

- Competition cannot yet be assessed because the live mapping lookup is incomplete.
- Demand, supplier prices, and informal competitors require local verification before a go/no-go decision.

Needs verification

Risk and opportunity guide

These actions respond to the evidence currently available. They do not claim demand, profit or a guaranteed business outcome.

CURRENT WATCH

Evidence gap

Confirm the selected Census sub-district before using local evidence.

PROTECT YOUR DOWNSIDE

- Collect at least three current supplier quotations.
- Test your offer with real local customers before investing.
- Keep working-capital reserve separate from equipment cost.

POTENTIAL OPPORTUNITY

Opportunity cannot be classified from incomplete mapped-business evidence. Complete local verification first.

10 • APPLICATION READINESS

Action plan

 Prepare a project report that separates capital expenditure from working-capital needs and attaches current supplier quotations.	 Use only the official Udyam Registration portal for enterprise registration: https://udyamregistration.gov.in/
 Confirm the selected scheme's applicant eligibility, activity classification, documents, training and final repayment schedule through its official channel.	 Do not pay intermediaries for a government-scheme sanction; use the official application links shown for each route.
